

Halil İbrahim Koçoğlu

Hükümet Mah. Güliz Sok. No:2,
Yenipazar, Aydın

ABOUT

I graduated from Necmettin Erbakan University Aviation Management.

Since 2018, I have combined my interest in the computer and software industry with determination, and after September 2022, I have devoted myself to training and developing on the software industry(especially web development).

I want to be MERN Stack Developer at first. After that I want to go for Full-Stack Web Development. I currently live in Aydın, however I can move for work if I have to.

I love reading mythological stories and books, fun-sounding rhythms and musics, pets, playing (story-based) computer games. Although I am prone to group work, mostly I prefer to have fun with myself in my private and social life.

SKILLS AND COMPETENCIES

- HTML
- CSS
- Bootstrap
- Javascript
- React Js
- Redux
- Node Js (Express)
- Mongo DB
